Age: 8y
Color: Black

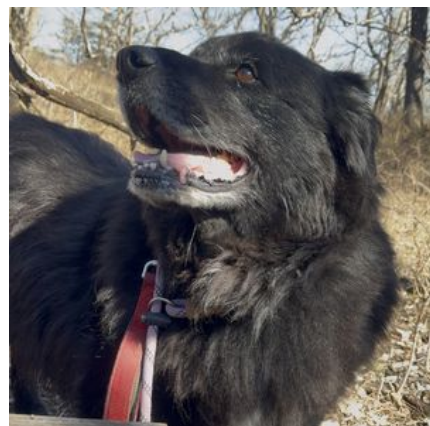

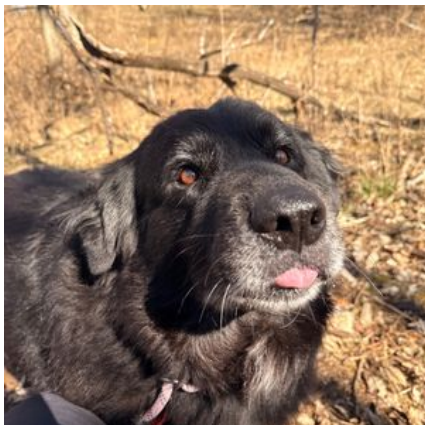

Breed: Newfoundland/Mixed Breed (Large)
Age group: Senior (8+ years)
Size: Large
Altered: Yes

Attributes

Medical - Basic Vetting Completed

About

Requires several intros, but worth every minute of your time. Once you build a connection with him he is the biggest cuddly marshmallow. He is estimated to be approximately 7 years young and still has so much energy and love to give. He walks wonderfully on a leash and loves a cold day for an adventure. If you're looking for a truly loyal companion Bernie would be your guy. He is up to date on all medical vaccinations and is neutered.
